

Batteries

To ensure your gadgets are always powered, look no further than Verbatim's reliable and long lasting alkaline batteries. Up to 4 times more powerful than zinc carbon batteries, Verbatim batteries have a higher density and thinner "can" than most to maximise space for active components to increase output power. Alkaline batteries have a higher energy density and a longer shelf life, suitable for powering all kinds of household items. Remote controls, toys, cameras, games controllers, electric toothbrushes...the list is endless!
